# Private and Presale Lockup

## Investment Stability Strategy

- **1-Year Token Lockup:** Private-sale and presale tokens are locked for one year, ensuring commitment and stability.
- **Scheduled Token Release:** Post lockup, a 5% release of tokens each month facilitates a controlled and stable token flow into the market.
- **Investor Assurance:** This strategic approach balances market supply and demand, providing investor assurance in the token's longevity.

# Staging of Purchases

## Controlled Release Strategy

- **Staging Purchases:** All token purchases are initially placed on staging, preparing for gradual distribution.
- **Monthly Rewards:** Investors receive 2% of their total token amount each month, providing flexibility and control over their investments.
- **Investment Flexibility:** Investors can use, trade, or hold their monthly rewards based on personal strategy and market conditions.
