iQopy Whitepaper - Light Version

The World's 1st DApp Inter-Exchange Copy Trading Platform
Unlock Your Investment Potential: Join the Future of Crypto Trading!

Author: Cosmin Tiu, iQopy Founder
Written by the iQopy Development Team

Introduction:

iQopy is a decentralized crypto copy trading platform designed to optimize investment portfolios and minimize risk. By connecting investors with skilled strategy providers, iQopy offers transparent and reliable copy trading solutions.

Key Features:

- Optimization Algorithm: Our algorithm analyzes strategy provider performance to match investors with compatible providers, reducing risk and maximizing returns.
- Strategy Provider Validation: iQopy validates strategy provider reports directly from the exchange, ensuring authenticity and transparency.
- Copy Trading via API Integration: Investors can replicate trades from multiple providers seamlessly by integrating their exchange accounts via API.
- Metric Weighting System: Our platform assigns importance to key performance metrics to optimize trading strategies and enhance returns.
- Maximum Drawdown Setting: Investors can customize their risk management strategy by defining maximum drawdown preferences.

Technology:

- Built on NodeJS and ReactJS for a seamless user experience.
- Operates on the Binance Smart Chain (BEP20) for scalability and low transaction costs.
- Records trades on the blockchain for transparent and secure verification.

Tokenomics:

- Name: iQopy (IQO)
- Symbol: IQO
- Network: BEP20
- Total Supply: 1,000,000,000
- Token Distribution: Seed & Private Sale (10%), Development Team (30%), Presale (20%), Staking and Rewards (25%), Initial Circulation (5%), Treasury (10%)

Staking and Governance:
- Staking: iQopy offers users the opportunity to participate in staking, allowing them to earn rewards by locking up their IQO tokens. Staking rewards are set at 2% per month, providing users with additional incentives to hold and stake their tokens.
- Governance: Our platform is governed by a decentralized autonomous organization (DAO), where token holders have the power to vote on important decisions and proposals. By participating in governance, users can actively shape the future direction of iQopy and contribute to its growth and development.

Regulatory Compliance:
- Licensed as a Dubai-based crypto company.
- Provides a platform for trading and investment but does not offer financial advice or manage funds.

Roadmap:
- Project Initiation (Q3 2022)
- Algo Development (Q1 2023)
- Testing Phase (Q4 2023)
- Beta Version (Q1 2024)
- Full Launch & ICO (Q2 2024)
- AI Assistant (Q3 2024)
- Mobile App (Q4 2024)

Team:
- Founded by Cosmin Tiu, a seasoned trader and entrepreneur.
- Supported by a skilled team in trading, marketing, and web development.

Risk Disclosure:
- iQopy prioritizes risk management and provides users with tools and resources to mitigate risks effectively.
- Emphasizes responsible investing and offers educational support to users.

Conclusion:
iQopy offers investors a transparent and reliable copy trading platform with innovative features and robust risk management measures. Join us today to unlock the full potential of your investment portfolio.
